# THE Tailcoat *collection*

Who could fail to look distinguished in this most elegant of outfits? The tailcoat became popular as a riding jacket in the 19th century when the rider would use the two buttons at the rear of the jacket to fasten the tails up when on his horse.

Today, the classic tailcoat offers a strong, formal look for your wedding - and instantly helps you look the part for other social occasions such as Royal Ascot.

Available in black, navy, mid grey and slate grey. Both black and navy have the traditional choice of co-ordinating stripe trousers, and all colours are available with matching plain trousers.

All tailcoats are available in gents and boys sizes, from 20xs to 60xl.

# THE Frockcoat *collection*

The frockcoat has been a fashionable choice since Victorian times. Back then, it was the coat for distinguished gentlemen and would be worn as daily business attire by the well-to-do. In the 21st century, the frockcoat brings something that little bit different to your own unique day.

The frockcoat is renowned for its crisp front edges and its squared-off tail.

The jacket comes with matching plain trousers and is available in gents sizes from 34xs to 60xl.

All short jackets are available in gents sizes from 34xs to 60xl.
